November 2014

Aerospace Policy Forum at TAG's Annual Legislative Roundtable on November 12th

The Technology Association of Georgia and the Center of Innovation for Aerospace will present the 2014 Legislative

Roundtable on November 12th in Atlanta in preparation for the upcoming 2015 Georgia General Assembly. The event will allow legislators and other state leaders to hear from industry and organizations on policy initiatives needed to support continued growth in our local technology industries, including aerospace.

France-Atlanta 2014: Together Towards Innovation

Formed in 2010, France-Atlanta: Together Towards Innovation conducts a series of events to bring two groups together on many topics of mutual interest. Dr. Eric Feron of Georgia Tech's School of Aerospace Engineering hosted a two day conference of the France - Atlanta partnership entitled "Drones and Autonomous Aviation: Innovation, Markets, and Regulations" about Unmanned Aircraft Systems (UAS) on the Georgia Tech campus. Leaders from research centers and companies in France's Aviation Valley shared ideas with their Georgia counterparts, and there were many common interests and goals.
